

**FORMER KELLY AFB
FINDING OF SUITABILITY TO
TRANSFER (FOST) PROPERTY
AT
145 DUNCAN AVENUE**

The United States Air Force Real Property Agency (AFRPA) is giving notice of intent to sign a Finding of Suitability to Transfer (FOST) approximately 6.551 acres of real property (land only) located at 145 Duncan Avenue on the former Kelly Air Force Base, San Antonio, Texas. The FOST is based on an extensive review of the environmental condition of the property that was done in consultation with federal and state environmental regulatory agencies. Public comments can be submitted during a thirty (30) day public comment period starting December 1, 2002 and ending December 30, 2002.

After completion of appropriate environmental documentation, the Air Force reached the decision to sign a FOST for the property. The property became available as a result of Public Law 101-510, the Defense Base Closure and Realignment Act of 1990, and subsequent closure of Kelly Air Force Base.

A copy of the FOST, including regulatory comments, supporting environmental documentation and responses to regulatory comments on the Supplemental Environmental Baseline Survey, are available in the Administrative Record. The Administrative Record can be found at the Kelly Library, 250 Goodrich, Suite 6, Room 138 and the City of San Antonio Central Library at 600 Soledad, Second Floor Government Documents area, during normal business hours.

Individuals may submit comments by any of the methods listed below:
